The following collection of one hundred of my "BEST" or "FAVORITE" Gladiolus contains most of the beautiful named varieties of Eugene N. Fischer; some of Clark Brown's; a considerable number of Kunderd's; a few of Diener's, and others that are beautiful. It contains many that have scored from 80 per cent to 93.6 per cent, according to the Symposium of the American Gladiolus Society completed in the fall of 1924, and published in the January, 1925, issue of the *Bulletin* of the American Gladiolus Society.

I specialize in New England Introductions.
